I am a Regent's 4.0 graduate in Management Information Systems (with an IT minor) at Georgia Gwinnett College looking for opportunities to work in technical consulting, IT specialist, business analysis roles, and more, particularly if the role involves extensive travel. As someone with interests in both the business and technical side of IT, I feel that my flexibility and big-picture view allow me to bring a unique view to problem solving in your business. In concrete terms, my coursework provided me experience in project implementation, Python-powered data analysis, and agile and waterfall project management.

In addition to my academic focus leading me to graduate Summa Cum Laude at GGC, I was privileged to be elected to lead the burgeoning International Business Club as President (for which I earned the "Spirit of the Grizzly Award" in recognition of my work) and serve on the Student Advisory Board, responsible for advising the dean of the GGC School of Business. These roles have helped me hone not only my leadership skills but my ability to understand and work with and through the many departments and requirements of the college and the University System of Georgia, a skill and big-picture view which I feel would help me best assist your business.

My time attending college also saw me awarded the Gilman Scholarship, a highly-competitive scholarship sponsored by the United States Department of State which enabled me to become a foreign exchange student at Kansai Gaidai University in Osaka, Japan. Along with my academics in Japan, I was a part of the Osaka Global Student Ambassador Network, a cultural outreach program to promote interest in foreign exchange both in and to the area. This experience offered me further experience working with and within other cultures. Following my schoolwork, I applied and passed through the United States Foreign Service Officer Specialist admissions process, which saw me receive a Top Security Clearance with Secure Compartmented Information privileges (without polygraph; not requested).

Thank you for taking the time to consider me; I hope to hear from you soon.

Sincerely,

William Arnold
